Waste management System (10/2022 - 11/2022)

- Smart cities integrate multiple mobile or web solutions to build a comfortable human habitation.
- One of these solutions is to provide an environmentally friendly, efficient and effective garbage management system.
- The current garbage trucks doing rounds daily or weekly , which not only doesn't cover every zone of the city but is a completely inefficient use of government resources.
- I have used the technology such as HTML ,CSS ,Bootstrap,JavaScript and Php.
